- We deliver on our promise

Client Testimonials

When I started up my company I chose Enhance to design my logo and website because they understood exactly the identity I wanted to achieve. I can't thank Gillian and Cliff enough!

Paul Rawson, LogoWear

When I first approached enhance regarding the creation of a new website for my new business, firstly there quotation was very competitive. They were prompt, creative, very helpful, full of energy and ideas from the start of the project right through to completion. I found Gillian and the team a pleasure to work with and hope to do more business with them in the future.

Walter Rowe, WRA Engineering

I selected Enhance as I wanted a company to both design and develop my business site as an ongoing project. Just check out their client list; a strong business portfolio, utilising the latest Apps. From a design perspective every site they design looks different. I found the whole process from start to finish very straight forward. Gillian, their Account Manager was very professional to deal with and altogether they acted in my best interests and exceeded all expectations.

Mark O'Donoghue, Prostaff

As a consultant the earliest concern in any discussion is whether the Client's expectation is fully understood and interpreted. If not, the delivery maybe a great product but not what the Client ordered! From the outset the team at Enhance engaged in detailed conversation, conceptual design, rigorous discussion and debate, with plenty of humour! Communication was excellent and continuous, always available making sure nothing fell through the net. Well done Enhance, you delivered the right product!

Ian Childs – On behalf of Crewlink.ie
